Section 1: Triodos Investment Management and Depository Receipts

Order and settlement process

The Triodos investment products on offer can be split into two categories:

- The Triodos Impact Investment Funds. The Triodos Global Equities Impact, Pioneer Impact and Sterling Bond Impact funds fall within this category
- Triodos Bank Depository Receipts.

All orders in the Triodos investment products on offer are done so outside of MIFID II 'trading venues'. This is because MIFID II defines a trading venue as a regulated market, multilateral trading facility or organised trading facility and all orders are either processed by Triodos or our third-party providers who do not fall into these categories. Orders are processed and settled as per the table below:

- The WM/Reuters exchange rates are provided by State Street subsidiary the WM Company and Thomson Reuters – charges apply, see Charges below

When you purchase or sell investments with a base current of euros, your sterling is converted into euros or back from euros into sterling. Dividends from these products are also converted from euros into sterling. The rate of exchange used to convert your sterling into euros or back again is available upon request.

- **Annual Service Charge** – Please be aware that the sale of shares to cover the Annual Service Charge is classified as a disposal for Capital Gains Tax purposes and may need to be declared to HMRC. For further information please consult a tax specialist or HMRC
- **Ongoing Charges Figure (OCF)** – (also known as the Total Expense Ratio or TER) - is the ongoing costs of running the funds. The OCF includes the fund managers Annual Management Charge and other expenses of running the fund, such as the board of directors and audit fees. The Annual Management Charge is the charge taken by Triodos Investment Management to select investments based on their sustainable and financial performance.

The OCF is expressed as an annual percentage and is calculated and deducted from the fund daily. The charge is reflected in the value of the fund, you will not see this on your statement and do not need to pay for it separately.

Please note there may be a difference in the OCF for the distribution and capitalisation share classes, where this is the case, we will always show the highest figure. The OCF's are correct as of 31 March 2022 and may vary.

Share prices for the Triodos Global Equity Impact and Pioneer Impact funds are converted between sterling and euros when buying and selling, and a fee of 0.2% of the exchange rate used is charged. This fee is not applied directly to individual investments, it is shared by all euro and sterling investors in the fund and is already accounted for in the published share prices.

Best execution

- We will execute all orders in a fair and consistent manner as outlined in the Order and Settlement process

- We will attempt to place your order regardless of the size, and will contact you if there are any liquidity issues
- Due to the nature of the Triodos investment products on offer, no other considerations are relevant to the best execution of your order.

Third parties

- We make remuneration payments to third parties who process orders on our behalf which are calculated based on the costs of providing these services. These payments are not related to and do not impact the best execution of your orders
- Orders in the Triodos Impact funds will be transmitted to the Administrative Agent in accordance with the relevant Prospectus. The Administrative Agent will execute your deal in line the dealing terms set out in the Prospectus
- Orders in Depository Receipts will be transmitted to Triodos Bank N.V. who will execute your deal in line with the dealing terms set out in the Prospectus.

Section 2: Triodos Crowdfunding

Investments available on the Triodos Crowdfunding Platform are offers of new bonds or new shares to be issued by companies once the minimum or target subscription amount has been raised for the offer and the offer is closed. Investors make applications for the bonds or shares and applications are processed on a first come, first served basis. At offer close, the investments are issued directly by the companies to investors who have applied to buy these new bonds or new shares. There is no intermediary, no third party and no execution venue. Investors do not pay a fee to purchase the bonds or shares.
